DETAILED ACTION

This application is in condition for allowance except for the following formal matters:

Claims 9 and 10 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot properly depend from any other multiple dependent claims. See MPEP § 608.01(n). Accordingly, the claims have not been further treated on the merits.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Allowable Subject Matter

The following is a statement of reasons for the indication of allowable subject matter: No prior art has either been found or supplied that teaches or fairly suggests the production of a copolymer blend comprising an ethylene/ α -olefin copolymer with a thermoplastic elastomer, in the proportions, and having the specific physical characteristics as that herein recited and claimed. Since there are no other outstanding

Art Unit: 1711

issues with respect to the clarity or enablement of the claims, claims 1-8 are deemed to contain allowable subject matter.

The reference to Tanaka et al, cited of interest, teaches the manufacture of a blend of an ethylene/ α -olefin copolymer with a thermoplastic propylene resin. The reference fails to teach the mixture of the ethylene/ α -olefin copolymer with an thermoplastic elastomer, as herein recited and claimed. Note the Abstract of the patent. The reference is not deemed to present a bar to the patentability of the instant claims. A copy of this reference will NOT be supplied with this Office Action.
